

## LUCAS GIL

MOTION | VFX | VR DESIGNER

Hi,

**It is an honor to be speaking with you!**

To the Sound of Good Dubstep and a PC at my command, I overflow Creativity!

27 years old, lover of Technology, Computer Graphics (VFX), Games and the world of Entertainment. Design student for 12 years.

Literally in love with GAMES, CINEMA, VFX, AVENGERS and my mother's Stroganoff lol

I create experiences for the **METVERSE**, with augmented and virtual reality.

I'm still not the best in the native language, but I'm dedicating myself 100% day by day to being fluent. It will be a pleasure to be part of the team, you can learn a lot and contribute to the goals.

Your Regards,  
**Lucas Gil.**
